Bibliographical Series Number One.

The American Institute for Marxist Studies (AIMS) is an educational, research and bibliographical institute. Its purposes are to encourage Marxist and radical scholarship in the United States and to help bring Marxist thought into the forum of reasonable debate to produce a meaningful dialogue among Marxist and non-Marxist scholars and writers. Its policy is to avoid sectarian and dogmatic thinking. It engages in no political activity and takes no stand on political questions.

To these ends it invites the support and participation of all scholars and public-spirited individuals.
